SECTION 4: MEDICARE/MEDICAID UTILIZATION

APPENDICES

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

INTRODUCTION

Thank you for your interest in the **1996 Annual Hospital Utilization and Services Report**. This report, as in previous reports, covers the utilization and services activities of licensed Kentucky hospitals for the calendar year, January 1 through December 31. You may notice variations, however, in the data presentation and formatting of this report as compared to prior years, though the content remains the same.

The report is divided into four sections, with each section preceeded by technical notes:

- ◆ **Section I - Hospital Utilization Data by Licensed Bed Type**
- ◆ **Section II - Acute Bed Utilization**
- ◆ **Section III - Service Utilization**
- ◆ **Section IV - Inpatient Utilization Data of Medicare/Medicaid Patients**
- ◆ **Appendices**

The Health Policy and Analysis Branch produces a number of utilization and services reports which can be obtained by contacting our office. In addition to the Annual Hospital Utilization and Services Report, the following reports are also available: Long-Term Care Report; Home Health Services Report; Hospice Report; MRI Report; and Ambulatory Surgical Services Report.

If you have questions or comments regarding the data contained in this report, or would like more information, please contact Missy Adkisson.

SECTION I

UTILIZATION OF LICENSED BEDS

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

SECTION I

UTILIZATION BY LICENSED BED TYPE

Combined **Acute and Psychiatric** inpatient utilization data are in **Table 1** as in previous reports. Since the Kentucky State Health Plan review criteria and standards consider acute nonpsychiatric and psychiatric beds separately, utilization of these beds is also shown separately, **Acute Nonpsychiatric** in **Table 2** and **Psychiatric** in **Table 3**. Utilization of **Swing Beds** by long term care patients is shown in **Table 4**. **Chemical Dependency** and **Physical Rehabilitation** data are in **Tables 5 and 6**. There is not longer a table representing Dual Bed utilization due to the elimination of dual licensure during calendar year 1996. All facilities with dual beds had the option of converting those beds to long-term care beds during the year. Utilization data for long-term care beds is maintained in a separate report which is available from this office.

The following utilization indicators are shown: Licensed Beds, Beds in Operation, Total Admissions, Total Inpatient Days, Total Discharges, Total Discharge Days, Average Daily Census (ADC), Occupancy Percent, and Average Length of Stay (ALOS). Three of these measures - ADC, Occupancy Percent, and ALOS are the result of calculations. The formulae for calculating these indicators are:

Average Daily Census (ADC) = Total Inpatient Days / Days in the Reporting Period.

Occupancy Percent = [Total Inpatient Days / (Licensed Beds x Days in the reporting Period)]x 100. The occupancy percent is adjusted to account for bed changes during the reporting period.

Average Length of Stay (ALOS) = Total Discharge Days / Total Discharges.

Acute Nonpsychiatric Care, usually known simply as acute care, generally refers to those medical and/or surgical services provided for a period of time not to exceed thirty days. The higher the level of service - primary, secondary, or tertiary - the longer the patient may reside in a facility.

Psychiatric Care is provided in psychiatric hospitals or psychiatric units and encompasses a number of conditions. These conditions may require treatment beyond a thirty day period and, in some instances, require frequent follow-up care.

Chemical Dependency treatment service is a structured inpatient program providing medical, social, diagnostic, and treatment services to persons who suffer from illnesses related to the misuse or abuse of alcohol and other drugs. The setting of the service may be either in a general hospital itself or a facility devoted solely to providing chemical dependency services.

Comprehensive Physical Rehabilitation is the process of treating an individual who, through injury or disability, acquired or congenital, is in need of assistance for attainment of the maximum level of physical, educational, and vocational function.

Special note concerning swing beds: The swing bed program allows acute care hospitals in rural areas to utilize part of their beds for skilled nursing needs. Although these beds were established for, and are typically used for long term care patients, they still have the potential of being used for acute care patients, and therefore are included in their hospital's total licensed acute care beds in this report. They are also included in the number of beds in operation. However, data in Tables 1-3 reflect utilization by acute and/or psychiatric patients only, i.e., occupancy percents are based on acute and/or psychiatric inpatient days (exclusive of long term care inpatient days), divided by the respective total licensed bed days. Combined acute, psychiatric inpatient days (exclusive of long term care inpatient days), divided by the respective total licensed bed days. Combined acute, psychiatric, and long term care occupancy may be obtained by dividing the sum of acute, psychiatric, swing, and dual license inpatient days by total licensed bed days.

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

Licensed Bed Changes

Region	Number of Beds Changed	Bed Change Description
1		
Columbia Pine Lake Regional Hospital	14	14 dual beds converted to NF
Lourdes Hospital	30	30 dual beds converted to NF on 12/11/96
Western Baptist Hospital	24	24 dual beds converted to NF on 12/96
	68	
2		
Community United Methodist Hosp Inc	32	Decertified 16 acute beds and converted 16 acute to NF beds
McLean County Health Center	15	15 dual beds converted to NF
Muhlenberg Community Hospital	15	15 dual beds converted to NF on 12/4/96
Owensboro/Mercy Health System	30	24 dual and 6 acute converted to NF
Regional Medical Ctr of Hopkins Co	20	20 dual beds converted to NF
Union County Methodist Hospital	16	16 dual beds converted to NF
	128	
3		
Baptist Hospital East	23	Converted 23 acute beds to dual on April 1, 1996; converted 23 dual to NF
Breckinridge Memorial Hospital	18	18 dual beds converted to NF
Caritas Medical Center	33	33 dual beds converted to NF
Columbia Audubon Hospital	48	48 acute beds converted to dual, then to NF
Columbia Southwest Hospital	23	23 dual beds converted to NF
Columbia Suburban Hospital	27	Converted 27 dual and 10 acute beds to NF beds in December, 1996

Region	Number of Beds Changed	Bed Change Description
Flaget Memorial Hospital	12	12 dual beds converted to NF on 3/11/96
Hardin Memorial Hospital	15	15 acute care beds converted to dual, then converted to NF
Norton Hsp/Kosair Chdrn Hsp/Alliant Med P	17	17 dual beds converted to NF
Tri-County Baptist Hospital	25	25 dual beds converted to NF on 11/25/96
Vencor Hospital-Louisville	23	23 dual beds converted to NF
	264	

4

Columbia Logan Memorial Hospital	8	8 dual beds converted to NF
Franklin Simpson Memorial Hospital	6	6 Dual beds converted to NF
Jane Todd Crawford Memorial Hosp	8	8 acute care beds converted to NF on 12/09/96
Lake Cumberland Regional Hospital	12	12 acute beds converted to dual, then converted to NF
Russell County Hospital	14	14 dual beds delicensed
T J Samson Community Hospital	16	16 dual beds converted to NF
The Medical Center at Bowling Green	20	20 dual beds were decertified
The Medical Center at Scottsville	44	44 swing beds decertified on 9/1/96
Wayne County Hospital Inc	5	5 additional swing beds licensed
	133	

5

Berea Hospital	25	25 dual beds converted to NF on 12/12/96
Central Baptist Hospital	12	12 acute care beds converted to NF on 5/13/96
Clark Regional Medical Center	25	25 dual beds converted to NF

Region	Number of Beds Changed	Bed Change Description
Columbia Hospital Georgetown	10	10 dual beds converted to NF
Columbia Hospital Lexington	34	34 dual beds converted to NF
Ephraim McDowell Reg Medical Ctr	25	25 acute beds converted to dual then to NF
Garrard County Memorial Hospital	12	12 dual beds converted to NF
Harrison Memorial Hospital	0	14 dual beds converted to NF on 12/1/96
Humana Hospital Lexington	8	8 acute beds converted to dual, then to NF
Owen County Memorial Hospital	20	20 dual beds converted to NF
Rockcastle Hospital	6	6 acute beds were designated as swing beds on 5/10/96
St Joseph Hospital	22	22 dual beds converted to NF
The James B Haggin Memorial Hospital	25	25 dual beds converted to NF
	224	

6

St Elizabeth Medical Center N	61	24 dual beds converted to NF on 12/96; 4 psychiatric beds transferred to
St Elizabeth Medical Center S	14	10 new dual beds licensed and converted to NF on 12/5/96; 4
St Luke Hospital E	26	26 dual beds converted to NF
St Luke Hospital W	24	16 dual and 8 acute beds converted to NF
	125	

7

Morgan County ARH	10	10 dual beds converted to NF
St Claire Medical Center	20	20 acute beds converted to sub-acute care beds on 10/25/96
	30	

Region	Number of Beds Changed	Bed Change Description
8		
Baptist Regional Medical Center	25	25 acute care beds converted to dual then to NF in April, 1996
Harlan Appalachian Regional Hosp	25	25 acute care beds converted to dual then to NF on 10/96
Highlands Regional Medical Ctr	18	18 acute beds converted to dual then to NF
Knox County Hospital	0	16 dual beds converted to NF
Marymount Hospital	24	24 dual beds converted to NF
McDowell Appalachian Regional Hosp	10	10 acute beds converted to dual then to NF
Memorial Hospital Inc	5	2 acute beds changed to ICU beds on 9/30/96; 5 dual beds converted to NF
Our Lady of the Way Hospital	13	13 dual beds converted to NF
Pineville Community Hospital	0	25 dual beds converted to NF
Williamson ARH	10	10 dual beds converted to NF on 12/20/96
	130	
Grand Total:	**1102**	

Table 1 - Acute and Psychiatric Inpatient Utilization by Facility and Region

Region 1

- *Marshall County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *Murray-Calloway County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *University of Louisville* data for all tables is for the period February 7, 1996 through December 31, 1996 only.
- *Ohio County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *Columbia Hospital Lexington* did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *ARH Regional Medical Center's* 20 licensed psychiatric beds are not in operation, however they do operate 100 licensed state psychiatric beds.

Table 2 - Acute Nonpsychiatric Inpatient Utilization by Facility and Region

Region 1

- *Marshall County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *Murray-Calloway County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.

Region 2

- *Ohio County Hospital* did not report discharge days, therefore inpatient days were used to calculate ALOS.

Region 5

- *Columbia Hospital Lexington* did not report discharge days, therefore inpatient days were used to calculate ALOS.

Table 3 - Psychiatric Inpatient Utilization by Facility

- *Murray-Calloway County Hospital* psychiatric utilization data included in acute care utilization.
- *Columbia Hospital Lexington*did not report discharge days, therefore inpatient days were used to calculate ALOS.
- *Owensboro/Daviess County Hospital* psych utilization includes untilization for their licensed CD beds.

Table 4 - Swing Bed Inpatient Utilization by Facility and Region

The following hospitals did not report discharge days, therefore inpatient days were used to calculate ALOS:

- *Crittenden County Hospital*
- *Marshall County Hospital*
- *Ohio County Hospital*
- *Twin Lakes Medical Center*
- *Clinton County Hospital*
- *Columbia Greenview*
- *Three Rivers Medical Center*

No data was reported by the following hospitals:
- *Marymount Hospital*
- *Parkway Regional*

Table 5 - Chemical Dependency Inpatient Utilization by Facility

- *Lake Cumberland Regional Hospital* did not report discharges, therefore admissions were used to calculate ALOS.
- *Owensboro/Mercy Health Systems* 8 CD beds are operational but utilization for these beds are included in the facilities psych utilization.
- *St. Elizabeth's Medical Center North 's* CD unit closed in 1995, however the beds are still licensed.

CORRECTION

Beds in operation and occupancy percent have been updated for Cardinal Hill Hospital. Changes were made pursuant to a letter dated 4/17/98 from Cardinal Hill Hospital regarding their misinterpretation of beds in opertation as reported in the 1996 Annual Survey of Licensed Hospitals.
SECTION II

ACUTE BED UTILIZATION

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

SECTION II

ACUTE BED UTILIZATION

This section shows the distribution of acute and intensive care beds by inpatient service provided. **Table 7** covers inpatient services and utilization of acute care beds. The major categories are Medical/Surgical, Obstetrics, and Other (nonclassified) services. The category Other (nonclassified) services includes neonatal Level II and III beds, intensive care beds, transitional care beds, telemetry beds, etc. Data in these tables should be used with care as some hospitals were unable to submit data that distinguished between categories.

Table 8 covers inpatient services and utilization of intensive care beds. The major divisions are ICU, CCU, and Burn Care. Other IC/Special Care beds are no longer included in these tables, since transitional care beds (special care, progressive care, step-down beds, etc.) are not recognized as a special category of intensive care beds. These beds are considered medical/surgical beds.

Table 9 shows the utilization of newborn bassinets and Level II and Level III neonatal care beds by facility.

Special Note: The utilization of intensive care beds and neonatal care beds is included in **Table 7**. The data shown are beds in operation and inpatient days. The ICU and CCU data in **Table 8** and the Neonatal data in **Table 9** represent a subset of the total acute care data presented in **Table 7**. Therefore, the bed and utilization data from these tables should not be added together to obtain data on the total of acute care beds.

SECTION III

SERVICE UTILIZATION

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

SECTION III

SERVICE UTILIZATION

This section covers the services that hospitals provide to their patients, from the availability of services to the use of specialized services. These tables display data on selected services such as surgical operations, heart surgery, cardiac catheterization, and CT scans.

Section III
Notes
Table 12 - Outpatient Utilization by Facility and Region

- Lake Cumberland Regional Hospital outpatient data not reported
- Clark Regional Medical Center other outpatient data not reported
- Columbia Hospital Maysville outpatient data not reported
- McDowell ARH other outpatient data not reported

Table 13 - CT Scan - Head and Body Scans by Facility and Region

Table 14 - Adult and Therapeutic Transplant Procedures by Facility

Table 15 - Therapeutic and Diagnostic Cardiac Catheterization by Facility and Region

The following hospitals reported cardiac cath utilization performed by a mobile service serving their facility:

- Columbia Pine Lake Regional
- Columbia Hospital Frankfort
- Columbia Hospital Georgetown
- Columbia Hospital Maysville
- Columbia Hospital Paris
- Ephraim McDowell Regional Medical Center
- Fleming County Hospital
- Murray-Calloway County Hospital

For a complete list of mobile health services and associated service areas, please contact the Certificate of Need Office at 502/564-9595 and request a copy of the Kentucky Health Facilities, Health Services, Major Medical Equipment, and Need Projections.

Table 16 - Megavoltage Radiation Therapy by Facility and Region

Region 3
- *University of Louisville* did not report hours of radiation, therefore single patient visit equivalents cannot be determined.

Region 8
- *ARH Regional Medical Center* did not report hours of radiation, therefore single patient visit equivalents cannot be determined.

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

SECTION IV

MEDICARE (TITLE XVIII)/MEDICAID (TITLE XIX) UTILIZATION

Medicare and Medicaid utilization by acute and psychiatric patients with a percentage of total inpatient days is provided in **Table 18**.

Table 20 shows the Medicare and Medicaid utilization of swing beds by long term care patients.

Special Note: As in Section 1 - Utilization by Licensed Bed Type, the utilization of these beds by acute care patients, if any, is included in the acute and psychiatric utilization data in **Table 18**.

Medicare and Medicaid utilization for licensed chemical dependency and physical rehabilitation facilities are found in **Tables 21 and 22**, respectively.

Table 18 - Number and Percentage of Total Inpatient Days Utilized by Medicare/Medicaid Patients: Acute and Psychiatric

Data from the following hospitals were not reported:

- *Ohio County Hospital*
- *Trigg County Hospital*

Table 19 - Number and Percentage of Total Inpatient Days Utilized by Medicare/Medicaid Patients: Swing Beds

Data from the following hospitals were not reported:

- *Trigg County Hospital*
- *Russell County Hospital*

Table 20 - Number and Percentage of Inpatient Days Utilized by Medicare/Medicaid Patients: Chemical Dependency

- *Owensboro/Mercy Health System's* Medicare/Medicaid CD utilization included in acute and psych utilization in Table 18.
- *Columbia Lake Cumberland* data not reported.
- *Westlake Cumberland* data not reported.

1996 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT
APPENDIX A - DEFINITIONS

Admissions: Number of patients, excluding newborns, accepted for inpatient service during the reporting period. Because of internal transfers, hospital admissions may be greater than total facility admissions.

Alcoholism/Chemical Dependency Outpatient Services: Hospital services for the medical care and/or rehabilitative treatment of outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.

Ambulatory Surgical Services: Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for ambulatory surgery, or procedure rooms within an ambulatory care facility.

Average Daily Census: Average number of inpatients, excluding newborns, receiving care each day during the reporting period. Derived by dividing the number of inpatient days by the number of days in the reporting period.

Average Length of Stay: Average stay of inpatients during the reporting period. Derived by dividing the number of discharge days by the number of discharges.

Bassinets: Number of newborn infant bassinets set up and staffed for use at the end of the reporting period. Bassinets are not included in the bed total and do not include isolets or neonatal intensive care units, which are included under beds.

Beds: Number of beds, cribs, and pediatric and neonatal bassinets regularly maintained (set up and staffed for use) for inpatients during the reporting period; does not include bassinets for normal newborn infants.

Births: Total number of infants born in the hospital and accepted for service in a newborn infant bassinet during the reporting period; excludes stillbirths. Births do not include infants transferred from other institutions and are excluded from the admission and discharge figures.

Burn Care Unit: Provides care to severely burned patients that is of a more intensive nature than the usual acute nursing care provided in the medical and surgical units. Beds must be set up and staffed in a unit specifically designated for this purpose.

Cardiac Catheterization Laboratory: Facility for special diagnostic and therapeutic procedures necessary for the care of patients with cardiac conditions. Available procedures must include, but need not be limited to, introduction of a catheter into the interior of the heart by way of a vein or artery or by direct needle puncture.

Census: The actual number of inpatients receiving care on any given day during the reporting

period; does not include newborns.

CT Scanner: Computed tomographic scanner for head and/or whole body scans.

Dual License Beds: Licensed acute care beds which have been issued a dual license to provide acute, skilled nursing and/or intermediate care.

Emergency Department: Organized hospital facility for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Must be staffed 24 hours a day.

Inpatient Days: Number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period.

Intensive Care Unit (cardiac care only): Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizures, open-heart surgery, or other life threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. Beds must be set up and staffed in a unit or units specifically designated for this purpose.

Intensive Care Unit (mixed or other): Provides nursing care to adult and/or pediatric patients of a more intensive nature than the usual medical, surgical, pediatric, and/or psychiatric care on the basis of physicians' orders and approved nursing care plans. Included are medical-surgical acute, pediatric, and psychiatric (isolation) units. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who, because of shock, trauma, or life-threatening conditions, require intensified, comprehensive observation and care. These units may also include cardiac care when such services are not provided in a distinct cardiac care unit.

Megavoltage Radiation Therapy: The use of specialized equipment in the supervoltage and megavoltage (above one million volts) ranges for deep therapy treatment of cancer. This would include cobalt units, linear accelerators with or without electron beam therapy capability, betatrons, and Van de Graff machines.

Neonatal Intensive Care Unit: Provides care to newborn infants of a more intensive nature than the usual nursing care provided in newborn acute care units, on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

Obstetrics Unit: Provides care to mothers following delivery, on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

Occupancy: Ratio of total inpatient days to total bed days in the reporting period. Bed days are the number of licensed beds times the number of days in the period, adjusted for changes in the number of beds during the period.

Open-Heart Surgery Facility: The equipment and staff necessary to perform open-heart surgery.

Organ Transplant: The necessary staff and equipment to perform the surgical removal of a viable human organ, other than the kidney, from either of living donor or a deceased person immediately after death, and the surgical grafting of the organ to the suitably evaluated and prepared patient.

Organized Outpatient Department: Organized hospital services (or clinics) for the provision of nonemergency medical and/or dental services for ambulatory patients.

Outpatient Visits: Visits by patients who are not lodged in the hospital while receiving medical, dental, or other services. A visit consists of one or more occasions of service. Each test, examination, treatment, or procedure rendered to an outpatient counts as one occasion of service.

Pediatric Inpatient Unit: Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

Physical Therapy Services: Services and use of facilities prescribed by physicians and administered by or under the direction of a qualified physical therapist.

Psychiatric Inpatient Unit: Provides acute care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. May also include the provision of medical care, nursing services, and supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons. Beds must be set up and staffed in a unit(s) specifically designated for this service.

Rehabilitation Inpatient Unit: Provides coordinated multidisciplinary physical restorative services to ambulatory patients under the direction of a physician knowledgeable and experienced in rehabilitative medicine.

Surgical Operations: Those surgical operations, whether major or minor, performed in the operating room(s). A surgical operation can involve one or more surgical procedures, but is considered only one surgical operation.

Swing Beds: Licensed acute care beds designated to be used alternately for acute or skilled nursing care.
